# REPUBLICAN PLATFORM.

I.
The Republicans of Nevada, in convention assembled, reaffirm their unfaltering loyalty to the principles of the party as enunciated in all their National Platforms from Lincoln to Blaine. It promised economy and retrenchment, and has been most extravagant in expenditures and appropriations, which, for the current year, largely exceed the abundant revenues of the Government. It promised to reduce the surplus in the Treasury, has permitted such surplus to lie idle and accumulate to the injury of the business of the country, and has refused to approve of the action of a large majority of both Houses of Congress directing that such surplus be applied in payment of the interest-bearing debt of the country. Expenditures beyond the means of private individuals are required for surveys, engineering, and the construction of reservoirs, canals, and other hydraulie works, for the purpose of irrigation in this State. We therefore favor liberal appropriations by Congress for surveys, both hydrographical and topographical, to ascertain how the waters of this State, which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known suitable aid may be obtained from Congress to enable the Government of the United States to dispose of its lands, and to enable the people to settle upon and occupy the same.

## **Surface Indications**

Whas a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and carly summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. endeavors to expel it from the system.
While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health. Nature must be aided by a thorough blood-purifying med-icine; and nothing else is so effective as

The medical profession indorse AYER's SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Sen-ator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."
